

MADE TO ORDER

Textiles are specialised in the production of high-end promotional items such as custom made beanbags, cubes, poufs, hockers, cushions, umbrellas, tents, lounge furniture and bespoke items all manufactured with digitally printed fabrics and materials. As a result of many years of experience in the design and production of textiles, we are able to print on a massive variety of fabrics using a multitude of techniques honed and developed in our studios, ranging from dyeing fabrics in your own Pantone colour to fully digital printed fabrics. Utilising our own production facility in the Netherlands enables us to develop unique ranges suited to specific tastes and deliver fast, flexible turnarounds and in small quantities. We can offer the unique opportunity to order some lines of beanbags and cushions with a minimum order quantity of one.

BEANBAGS
COLLECTION | 2019

Sizes

Size	Filling
cms	litres
W100xL140	250
W140xL140	300
W135xH165	380
W140xL180	400
W135xL195	420
W130xL160	360

Please advise us if you require a size outside of the above dimensions, we can also supply bespoke size beanbags. Standard fabric width is maximum 150cm. Non-standard fabrics can go up to 300cm.

Filling

We offer two different types of beanbag filling: EPS granulate and EPS pearls.

What is EPS (expanded polystyrene)?

EPS, or expanded polystyrene, is a rigid cellular plastic originally invented in 1950 by BASF in Germany. It has been used in packaging solutions since 1958. EPS is in fact 98% air, the remainder of the material is made up of carbon and hydrogen.

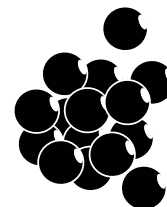

EPS granulate:

Granulate is our standard filling. The granulate beads are machine cut and vary in size.

EPS pearl:

Pearl beads are of “virginal” quality; they are perfectly round, and all the same size.

What is the difference?

EPS pearls are perfectly shaped, more comfortable and will stay in shape longer.

A modern, minimalist sofa and armchair are displayed against a light blue background. The furniture is constructed from white, rectangular cushions and wooden pallets. The sofa is a long, low-profile piece with a wide backrest and a deep seat. The armchair is a smaller, similar piece with a high backrest and a deep seat. Both pieces are made from white cushions and wooden pallets. The wooden pallets are stacked vertically to form the legs and side supports. The cushions are arranged to create a comfortable seating area. The overall design is clean and contemporary.
